

Mireru PDF Preview Demo

This is a sample document for testing PDF preview functionality in Mireru.

Features to demonstrate

- PDF file detection and preview
- Metadata extraction
- File size and page count display
- Placeholder preview with external app recommendation

Technical details

Generated using Pandoc from Markdown for testing PDF handling in Mireru file explorer.

Key Features of Mireru

1. **Vim-style navigation** - Use j, k, n, p for file navigation
2. **Syntax highlighting** - Support for 20+ programming languages
3. **Image preview** - Zoom, fit, original size controls
4. **Performance optimization** - Fast directory loading and caching

Code Example

```
function previewFile(file) {  
  if (file.extension === '.pdf') {  
    return {  
      type: 'pdf',  
      message: 'PDF Preview - Use external viewer for full functionality'  
    };  
  }  
}
```
